

ITP Inspection and Test Plan

| Project Title: WDC Fluoridation | Project No: CON23011 (in | nternal #J2028) | Procedure No: | | | |
|--|------------------------------------|----------------------------|---------------|-------|--|--|
| Description of Activity: Ruddell's Mechanical Installation | chanical Installation ITP No.: 002 | | | | | |
| Location of Inspection / Testing: Ruddells WTP | ITP Approved by (BCL) Na | Date: | | | | |
| ITP Prepared by Name: Moira Brady Dat | e: 25/01/2024 | ITP Approved by (Client) N | ame: | Date: | | |

| ID No | | | | Inspection Responsibility | | | Verification Records of |
|-------|-----------------------|--|---|---------------------------|--------|------|------------------------------------|
| | Sequence of Activity | Type of inspect / Test and Frequency | pect / Test and Frequency Acceptance Criteria | | Client | Date | Inspection(s) / Test(s) |
| | | | | | | | |
| 2.0 | Documentation | | | | | | |
| 2.1 | Construction Drawings | All drawings are for construction and latest revision. | IFC drawings | 1 | S | | Drawing Register |
| 2.2 | Methodology | Approved construction plan & sequence drafted and briefed to all involved with activity prior to construction. Includes any isolation permits for tie ins. | Workpack Approved | S | А | | Approved Workpack Isolation Permit |
| 3.0 | Manufacturing | 1 | 1 | 1 | - I | ı | 1 |

| ID No | | | | Inspection | on Respon | Verification Records of | |
|-------|--|--|---|------------|-----------|----------------------------|----------------------------|
| | Sequence of Activity | Type of inspect / Test and Frequency | Acceptance Criteria | BCL | Client | Date | Inspection(s) / Test(s) |
| 3.1 | Pipe & Pipe Fitting (Flanges, Elbows, Tees etc.) | Confirm pipe and pipe fitting materials are correct; material grade, size, rating etc. on delivery | Pipe Data Sheet, Supplier Packing Slips | S | I | | Supplier Packing Slips |
| 3.2 | Nuts & Bolts | Confirm nuts and bolt materials are stainless steel grade 316 | Supplier Packing Slips | S | I | | Supplier Packing Slips |
| 3.3 | Consumables | Confirm consumable materials are correct on delivery | Supplier Packing Slips | S | А | | Supplier Packing Slips |
| 4.0 | Delivery, Storage & Hand | dling | | • | • | · | |
| 4.1 | Delivery | Check pipe materials, tanks, structural steel and dosing cabinets are undamaged; not misshapen, no surface damage, free from contaminants etc. on delivery | N/A | I | ı | | ITC-002 |
| 4.2 | Storage | For project entirety store materials in clean environment, protected from external damage; cover flange faces, store off ground using pallets. Ensure materials are free from contaminants and foreign debris. | N/A | W | I | | N/A |
| 4.3 | Handling | Handle materials with care and with the correct equipment (gloves, slings etc.) | N/A | I | 1 | | N/A |
| 5.0 | Site Installation | • | 1 | 1 | 1 | ı | 1 |

| | | | | Inspecti | on Respon | sibility | Verification Records of | |
|-------|-------------------------|--|---|----------|-----------|----------|---|--|
| ID No | Sequence of Activity | Type of inspect / Test and Frequency | Acceptance Criteria | BCL | Client | Date | Inspection(s) / Test(s) | |
| 5.1 | Install Pipe Supports | Install pipe supports in the correct locations before pipe installation | As per pipe manufacturer specifications | 1 | I | | Redline Drawings, ITC-02 | |
| 5.2 | Equipment Set-Out | Survey and mark the correct locations of all pipes, tanks, structures and equipment before installation | IFC Drawings | 1 | I | | Survey Record, Redline Drawings, ITC-02 | |
| 5.3 | Install Pipework | Install piping on the pipe supports during construction | IFC Drawings | ı | I | | ITC-02 | |
| 5.4 | Install Dose Tank | Install tank in correct location and orientation as specified in IFC mechanical layout drawings and tank manufacturers drawings | IFC Drawings | I | I | | ITC-02 | |
| 5.5 | Install Access Platform | Install access platforms in correct location and orientation as specified in IFC mechanical layout drawings and manufacturers drawings | IFC Drawings | 1 | I | | ITC-02 | |
| 5.6 | Install Dosing Cabinet | Install cabinet in correct location and orientation as specified in IFC mechanical layout drawings and manufacturers drawings | IFC Drawings | 1 | I | | ITC-02 | |
| 5.7 | Install Safety Shower | Install safety shower in correct location as specified in IFC mechanical layout drawings | IFC Drawings | I | I | | ITC-02 | |

| ID No | | | | Inspection | on Respons | Verification Records of Inspection(s) / Test(s) | |
|-------|---|---|---|------------|------------|--|----------------------------|
| | Sequence of Activity Type of inspect / Test and Frequency | | Acceptance Criteria | BCL | Client | | Date |
| 5.8 | Install new nozzles into Existing Raw Water Pipework | Hot tap into Raw water pipework for new Flow Switch and Fluoride Dose point at correct locations | IFC Drawings, Flow Switch O&M manual | | | | ITC-02 |
| 5.9 | Pressure Testing | All Fluoride dosing pipelines to be hydrotested 1.5 times the maximum working pressure for 15 minutes and inspected for leaks | NZS 7643 | w | А | | Pressure Test Records |
| 6.0 | As-builts | | | | | | |
| 6.1 | Redline Drawings Redline P&ID Drawings and Mechanical Drawings Sets post construction | | N/A | S | А | | Redline Drawings Issued |
